

FAÇADE STRUCTURES

Profil 78 Frontal

Timber, aluminium and glass façade structures with integrated windows and doors.

Product overview

Construction	Timber, aluminium, glass
Application	Large glazed building envelopes
Solution	Individually designed

Available dimensions, glazing, thermal performance and warranty terms are confirmed for the selected system and specification.

Specification

Materials, colours, glazing units, hardware and opening configurations are agreed individually. We consider the architecture, operating conditions and technical requirements of the project.

For an initial assessment, provide opening dimensions or drawings, quantities and the project location.
