Timber-aluminium

Timber-aluminium windows

Natural timber on the inside and aluminium cladding on the outside, for contemporary architecture.

Product overview

Inside	Natural timber
Outside	Aluminium cladding
Colours	Agreed individually

Available dimensions, glazing, thermal performance and warranty terms are confirmed for the selected system and specification.

Specification

Materials, colours, glazing units, hardware and opening configurations are agreed individually. We consider the architecture, operating conditions and technical requirements of the project.

For an initial assessment, provide opening dimensions or drawings, quantities and the project location.
